TiMOTION's TA16 series linear actuator is similar to the TA2 linear actuator, but is specifically designed for low-noise applications where a compact linear actuator is needed. It is available with optional IP66 protection and Hall sensors for position feedback. Certificates for the TA16 include IEC60601-1, ES60601-1, IEC60601-1-2, UL962, and EMC.

General Features

Max. load	4,500N (push) ; 2,500N (pull)
Max. speed at max. load	4.9mm/s
Max. speed at no load	58.2mm/s
Retracted length	≥ Stroke + 112mm
IP rating	IP66D
Certificate	IEC60601-1, ES60601-1, IEC60601-1-2, UL962, EMC
Stroke	20~600mm
Output Signals	POT, Hall sensor(s), NPN Hall sensors
Options	Motor brake
Voltage	12 / 24 / 36 / 48V DC; 12 / 24V DC (PTC)
Color	Silver
Operational temperature range at full performance	+5°C~+45°C

With very low noise, small size for easy installation

Suitable for patient hoist application

Note

1 #G_When pull load > 2500N, please discuss with engineer.

2 Please refer to the approved drawing for the final authentic value.

3 This self-locking force level is reached only when a short circuit is applied on the terminals of the motor. All the TiMOTION control boxes have this feature built-in. The self-locking force is a minimum value and can be actually higher.

4 The current & speed in table are tested with 24V DC motor. With a 12V DC motor, the current is approximately twice the current measured in 24V DC. With a 36V DC motor, the current is approximately two-thirds the current measured in 24V DC. With a 48V DC motor, the current is approximately half the current measured in 24V DC. Speed will be similar for all the voltages.

5 The current & speed in table and diagram are tested with TiMOTION control boxes, and there will be around 10% tolerance depending on different models of the control box. (Under no load condition, the voltage is around 32V DC. At rated load, the voltage output will be around 24V DC)

6 Without load, noise level ≤ 78dBA (by TiMOTION test standard, ambient noise level ≤ 36dBA).

7 Standard stroke: Please refer to the table below.
