

TDL1

series

Product Segments

- **Ergo Motion**

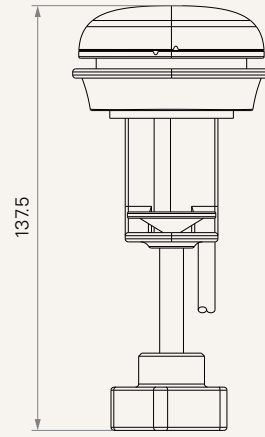

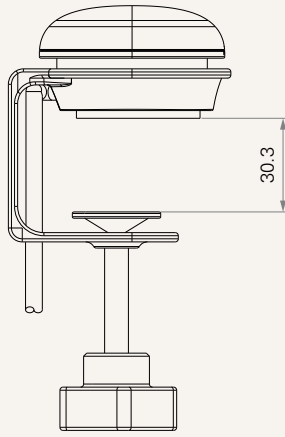

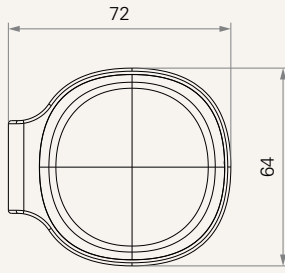

TDL1 is an IoT interactive device that connects electric height-adjustable tables to the internet, integrating them with cloud-based booking systems. The TDL1's light indicator displays real-time availability status of each individual workspace in the booking system. Equipped with both Wi-Fi and Bluetooth modules, it effortlessly allows workspace reservation and check-in through a mobile app.

General Features

An IoT interactive device
Equipped with both Wi-Fi and Bluetooth modules
